Re : M/V. :

Cntr number :

B/L number :

Port of loading :

Packages of bearing (diameter over 10mm) :

Packages of fag bearing :

This is to certify that the cargo covered in the subject shipment does not have the tolerances in accordance with ABEC7 or ABEC9/ISO standard class 2 or 4, which means the cargo is exempted from the Import & Export (Strategic Commodines) Regulations Cap.60 of the Hong Kong Government and Import licence is then not required.

Thank you for your kind attention and co-operation!
